

# Get The Most Out Of Office 365 and Boost Your Bottom Line

Lack of adoption can be costly and disrupt your organization's productivity. Our Office 365 Enablement program can help you save time, reduce costs, and increase collaboration and productivity across your organization.

Office 365

## The HIGH cost of LOW adoption

**Are you paying for duplicate tools that do the same thing?**

Your employees may be using applications already included in your Office 365 Suite leading to unnecessary spend.

**How much risk are you willing to tolerate?**

Without proper awareness and training, employees can inadvertently cause security breaches by making the wrong decisions.

**What is your organization's untapped potential?**

Most people only leverage 10-15% of what the Microsoft toolkit offers them, leaving great value on the table.

**Why pay for what you are not using?**

Organizations lose out on the full value of Office 365 by not adopting features and applications that can promote productivity.

## Our approach

**1 CHANGE MANAGEMENT**

We'll work with you to develop a strategy and roadmap to success and ensure people are productive from start to finish.

**2 INSTRUCTOR-LED TRAINING**

We provide dynamic and engaging trainers specialized in O365 tools to help educate employees and drive behavioural change.

**3 ONLINE TRAINING**

Through our partnership with Brainstorm, we provide training that helps users break past the software-status-quo by giving them the right content at the right time.

**4 INTERNAL MARKETING**

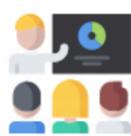

We take care of your O365 program promotion and develop custom products to keep the productivity and innovation message in the forefront of your employees' minds.

## What sets us apart

**DEEP MICROSOFT EXPERTISE**

Our Office 365 adoption methodology, approach, and years of experience with similar programs (involving various geographical locations and cultures) allows us to onboard fast and deliver true transformative experiences.

**CONTINUOUS LEARNING**

We go beyond the one-off, "check the box," courses or training videos and focus on changing and measuring behaviors to elicit long-term cultural change.

**ADOPTION IS ALL WE DO!**

We don't sell or deploy Office 365 products; our focus is to help your organization embrace change and realize the full benefit of your investment.

*Thank you for your effort and dedication to get the Tech lounge started. Seems like you have momentum and from listening to a few folks around the organization, there is a good buzz. Awesome work. Keep up*

- Hardeep Deol - Manager, Service Operations & User Productivity,
